

DIVERSICROP NEWSLETTER

-CA22146-

Europe's need for sustainable, nutritious food faces overlooked crops like rye and legumes, which are key for healthier diets. DIVERSICROP addresses this, reviving neglected crops by understanding their ancient history, current germplasm and limitations, and policy engagement.

NEXT EVENT- ACTION MEETING

DIVERSICROP will have an hybrid Action meeting event hosted by the Action Vice-Chair Dr. Balint BALAZS.

The meeting will take place in Budapest from **13th to 15th** February 2023. More details to follow soon.

The WGs will meet in parallel (approx. 1.5 days) to discuss their tasks and upcoming outputs and then report to the plenary (0.5 day).

The core-leadership (CL) group will meet (0.5 days) to discuss the Communication plan and Action Data Management Plan (DMP). The CL Group will also draft the report to the MC about the Action status.

4.

HAPPY HOLIDAYS

We wish everyone happy holidays to you and your family. May we all have a prosperous New Year of 2024 full of health and success!

Happy
New Year
2024
